To whom it may concern:

Marsh & McLennan Agency has worked closely with Xtreme Crane & Rigging for the past 3 years as their commercial insurance agent and risk management partner. Having worked with hundreds of construction clients and several crane companies throughout the state of Texas and the United States, we can confidently say that Xtreme ranks among the best when it comes to not only their loss results – but their continued commitment to risk management and safety.

They have never had any type of insurance claim. Although, they have a flawless track record, they still work on a proactive basis to maintain this reputation and ultimately, make sure their employees and clients are taken care of in safe manor. Safety and quality work are their top priorities.

The leadership and ownership team at Xtreme Crane & Rigging is very involved in all aspects of the business. They make sure the employees hired to represent them are first class and the equipment is top of the line.

I highly recommend any business that needs crane and/or rigging work to speak with Xtreme Crane & Rigging.

Sincerely,

Micah Salas
Agent, Assistant Vice President
Marsh & McLennan Agency- Southwest
